TOOK at the most handsome houses in town. Aren't most of them homes with distinctive roofs-roofs in attractive colors-with shingles of pleasing design?

Vulcanite Hexagon Slabs are the preferred choice of architects, builders and owners for beauty, protection and economy. The double butt construction throws a heavy shadow, giving the attractive appearance of the most expensive tile. They cover your roof with a double thickness in every place-proof against fire, wind and weather.

It costs less to lay Vulcanite Hexagon Slabs, for each automatically spaces itself, insuring quick work and true work. You can get them surfaced with green or red crushed slate.

Your lumber or building supply dealer can give you full information on Vulcanite roofings. There is one for every need-from roll roofings to individual shingles for the most decorative roofs. All are built up to the high "Beaver Quality" standards and identified by the Beaver trade-mark.

> All patented Vulcanite Roofing specialties are made in both jumbo and standard weights.

VULCANITE ROOFING DIVISION THE BEAVER PRODUCTS COMPANY, Inc., Buffalo, N. Y. District Sales Offices at Albany, Cincinnati, Chicago and Kansas City

VULCANITE SELF-SPACING SHINGLE The self-spacing shoulder makes lay-ing easy and economical and also seeks the roof against the morst ranges of the weather. Triple thick everywhere except at slots. Smart, trim and durable. This design is patented.

WARNING—Don't be misled by imitations. Vulcanite Hexagon Slabs are patented. They are made only by the Vulcanite Roofing Division of The Beaver Products Company, Inc. They are the only shingles made which can give you all of these distinct advantages. (1) Beautiful hexagon design with double thick butts. (2) Double protection everywhere. (3) Automatic spacing and low application cost. (4) Fire resisting. Insist on the genuine. Identified by the Beaver trade-mark.
